PROJECTS

Gesture Control System

2025

- Developed a real-time gesture control system using computer vision.
- Implemented hand tracking for mouse, volume, and scrolling control.
- Achieved smooth interaction using gesture recognition and system integration.
- Tech Stack: Python, OpenCV, MediaPipe

Crop Advisor

2026

- Developed an ML-based crop recommendation system using soil parameters (NPK, pH).
- Trained a Decision Tree model with data preprocessing and accuracy evaluation.
- Built a user-interactive system for real-time input and prediction.
- Tech Stack: Python, Pandas, Scikit-learn

Web-Based Checkers Game

2026

- Built a checkers game with complete game logic including movement and turn system.
- Implemented advanced rules like forced capture, multi-capture, and king promotion.
- Developed a rule-based AI opponent using greedy decision-making.
- Tech Stack: HTML, CSS, JavaScript

ACHIEVEMENTS

- Actively participated in coding contests .
- Consistent problem solver on online coding platforms.
